

# polarjet<sup>®</sup> 1600 plus

## The ultimate small device unit for dry ice cleaning – with special power

New and with special power: The most mobile small device among dry ice cleaning equipment! Equipped with standard product highlights, the convincing polarjet 1600 plus doubles the performance. A must for all those who are looking for a compact device and the best possible results. Equipped with a claw coupling connection, the unit operates fully pneumatic.

### The polarjet universe

The devices differ in air and pellet consumption. Basically, the cleaning or removal rate is proportional to the air and pellet consumption. Each device operates fully pneumatic and without electricity.

#### Rule of thumb:

The polarjet devices 1600 and 2000 are used to remove dirt that can be scraped off with your fingernail.

The polarjet 6000 is suitable for dirt that can be scraped off using the spatula. The performance of the polarjet devices 1600 plus and 4000 lies in between.

## Technical data

General features	Housing made of expanded polypropylene (EPP) and plastic
Frame and housing Exterior dimensions	Mobile unit on 4 wheels (front wheels rotatable) 360 x 530 x 610 mm
Container capacity	2 kg dry ice pellets
Compressed-air supply	> 2000 l/min (6 bar) 4 - 10 bar dehumidified air (refrigerant type dryer)
Weight with empty funnel	21 kg
Compressed-air setting display	Compressed-air regulator on housing
Dry ice consumption	10-40 kg/h
Standard content	Blasting gun with LED light and working hose, standardized connection coupling (European standard) with 7 meter compressed-air hose, ice shovel, 5 meter grounding cable with clamps, hour meter, safety instructions on back side of equipment, instruction manual
Optional	See accessories

excl.VAT **Price CHF 8'800.-** EUR 7'800.-
